19-11-21

Dear Resident/Homeowner,

Work is scheduled to commence on Martingale Way, Lawley to enable us to complete the sewer connections for the new housing phase. Works will begin 22-11-21 and are scheduled to be completed by 4-12-21.

Please also be aware whilst the works are ongoing the temporary footpath leading to the gardens will also be closed for the duration of the works.

These works are designed to alleviate the flooding issues that have been previously experienced on this site.

I have attached the estimated working area overleaf and would ask if you could exercise caution when approaching and passing the works area due to the lane being reduce to enable these works.

If you have any concerns, please get in touch.

Sincerely,

Dean Crowe
